

Must-Have Pages (Core Pages)

1 Home

Your first impression page.

Include:

- Short intro (Who you are + what you do)
- Your role (UI Developer / Frontend Developer)
- Tech stack (React, Next.js, Tailwind, Framer Motion, etc.)
- CTA buttons: **View Projects | Hire Me | Download Resume**

 *Keep it clean, animated, and fast.*

2 About Me

Show personality + professionalism.

Include:

- Short background
 - Your journey (intern → fintech → real projects)
 - What you enjoy building (UI, animations, responsive design)
 - Career goal (long-term growth, reliable organization)
-

3 Skills / Tech Stack

Show your strengths clearly.

Sections:

- **Frontend:** HTML, CSS, JS, React, Next.js
- **Styling:** Tailwind CSS, Bootstrap
- **Animation:** Framer Motion, CSS Animations
- **Tools:** Git, GitHub, Canva, Figma, Vite
- **Other:** Excel, Back-office tools (optional)

 Use **icons + progress bars or cards**

4 Projects

Most important page 

For each project show:

- Project image / slider
- Description (problem → solution)
- Tech stack used
- Live demo link
- GitHub link (if available)

Highlight:

- Fintech websites
 - E-commerce (WearBasket)
 - Sliders, dashboards, UI redesigns
-

5 Experience

Recruiters love this.

Include:

- Company name
- Role (UI / Frontend Developer)
- Duration
- Key contributions (UI redesign, components, responsiveness)

 Timeline style looks great.

6 Resume

Simple & clean:

- Embedded PDF viewer
 - **Download Resume** button
 - One-page ATS-friendly resume
-

7 Contact

Make it easy to reach you.

Include:

- Contact form
 - Email
 - LinkedIn
 - GitHub
 - Location (India – optional)
-

★ Good to Have (Boosts Portfolio Quality)

8 Blogs / Articles

Shows expertise.

Write about:

- UI tips
 - Tailwind tricks
 - React components
 - Animation techniques
-

9 Services

If you're open to freelance:

- UI Design
 - Frontend Development
 - Website Redesign
 - Landing Pages
-

10 Testimonials

If you have:

- Manager feedback

- Client comments
 - Internship reviews
-

Optional (Advanced / Personal Branding)

1 UI Components / Playground

- Sliders
- Cards
- Buttons
- Animations

2 Case Studies

Deep dive into:

- Problem
 - Design decisions
 - Final result
-
